ANSWER ENHANCEMENTS

We have added the following enhancements to the answers in this exam kit:

Key answer tips

Some answers include key answer tips to help your understanding of each question.

Tutorial note

Some answers include tutorial notes to explain some of the technical points in more detail.

ASSESSMENT TECHNIQUE

- **Do not skip any of the material** in the syllabus.
- Read each question very carefully.
- **Double-check your answer** before committing yourself to it.
- Answer **every** question – if you do not know an answer to a multiple choice question or true/false question, you don't lose anything by guessing. Think carefully before you **guess**.
- If you are answering a multiple-choice question, **eliminate first those answers that you know are wrong**. Then choose the most appropriate answer from those that are left.
- **Don't panic** if you realise you've answered a question incorrectly. Getting one question wrong will not mean the difference between passing and failing.

Computer-based assessments – tips

- Do not attempt a CBA until you have **completed all study material** relating to it.
- On the AAT website there is a CBA demonstration. It is **ESSENTIAL** that you attempt this before your real CBA. You will become familiar with how to move around the CBA screens and the way that questions are formatted, increasing your confidence and speed in the actual assessment.
- Be sure you understand how to use the **software** before you start the assessment. If in doubt, ask the assessment centre staff to explain it to you.
- Questions are **displayed on the screen** and answers are entered using keyboard and mouse. At the end of the assessment, you are given a certificate showing the result you have achieved unless some manual marking is required for the assessment.
- In addition to the traditional multiple-choice question type, CBAs will also contain **other types of questions**, such as number entry questions, drag and drop, true/false, pick lists or drop down menus or hybrids of these.
- In some CBAs you may have to type in complete computations or written answers.
- You need to be sure you **know how to answer questions** of this type before you sit the real assessment, through practice.

UNIT SPECIFIC INFORMATION

THE ASSESSMENT

FORMAT OF THE ASSESSMENT

Students will be assessed by computer-based assessment.

In any one assessment, students may not be assessed on all content, or on the full depth or breadth of a piece of content. The content assessed may change over time to ensure validity of assessment, but all assessment criteria will be tested over time.

The learning outcomes for this unit are as follows:

	Learning outcome	Weighting
1	Complete tax returns for sole traders and partnerships and prepare supporting tax computations	29%
2	Prepare supporting tax computations for the tax return for limited companies	19%
3	Provide advice on the UK's tax regime and its impact on sole traders, partnerships and limited companies	15%
4	Advise business clients on tax reliefs, and their responsibilities and their agent's responsibilities in reporting taxation to HMRC	19%
5	Prepare tax computations for the sale of capital assets	18%
	Total	100%

Time allowed

2 hours

PASS MARK

The pass mark for all AAT CBAs is 70%.

Always keep your eye on the clock and make sure you attempt all questions!

DETAILED SYLLABUS

The detailed syllabus and study guide written by the AAT can be found at:

www.aat.org.uk/

REFERENCE MATERIAL

Reference material is provided in this assessment. During your assessment you will be able to access reference material through a series of clickable links on the right of every task. These will produce pop-up windows which can be moved or closed.

ASSESSMENT GUIDANCE

- Some questions ask that answers be calculated to the nearest £. Some answers may require learners to calculate to the nearest £ and pence. If the question does not give any instructions then either method is acceptable and the computer will accept both.
- Some questions have scroll bars at the side. It is important that learners scroll down and do not miss out parts of questions.
- Where free text written answers are required, learners are supplied with a box to type their answers. This scrolls down as far as is necessary to accommodate the learner's answer.
- It is very important to read questions carefully. Common errors which have occurred in the assessments are:
 - (i) Not spotting when amounts are given monthly and not annually
 - (ii) Misreading dates
 - (iii) Being unable to work out the number of months in a period when time apportionment is required (e.g. for a partnership 'salary').
- Tasks involving basis period rules or loss relief rules are very badly answered.
- Capital allowance computations – this is a vital area. Tasks involving long or short periods or a cessation are often poorly answered.

TAX RATES AND ALLOWANCES

Throughout this exam kit:

- 1** You should assume that the tax rates and allowances for the tax year 2019/20 and for the Financial Year to 31 March 2020 will continue to apply for the foreseeable future unless you are instructed otherwise.
- 2** Calculations and workings of tax liability should be made to the nearest penny.
- 3** All apportionments should be made to the nearest month.

The tax rates and allowances below will be reproduced in the real assessment for business tax.

In addition, other specific information necessary for candidates to answer individual questions will be given as part of the question.

PRACTICE QUESTIONS

INCOME TAX AND CORPORATION TAX

CAPITAL AND REVENUE EXPENDITURE

Key answer tips

Adjustment of profits and determining capital versus revenue expenditure are important areas and likely to be tested. Knowledge of what is treated as capital and what is not is often an area where learners slip up. It is important not to neglect learning facts such as these.

The Business Tax reference material provided in your assessment covers these topics in the sections headed 'Adjustment of profits – sole traders, partnerships and companies' and 'Unincorporated businesses – trading income'.

1 GILES

Giles incurred the following expenditure.

For each item of expenditure, tick the appropriate box to show whether the item is treated as revenue or capital expenditure.

Decorating an office

Computer for a salesman

Office building extension

Electricity for the quarter to 31 March 2020

Meal to entertain a customer from Germany

Fork lift truck for the warehouse

Revenue	Capital

2 PHILIP

Philip incurred the following expenditure.

For each item of expenditure, tick the appropriate box to show whether the item is treated as revenue or capital expenditure.

Printer for the office computer

Water rates

Legal fees for purchase of a building

Revenue	Capital

3 BROWN

Brown incurred the following expenditure.

For each item of expenditure, tick the appropriate box to show whether the item is treated as revenue or capital expenditure.

Repairs to a boiler

Insurance for motor cars

Replacement of a severely damaged roof on a newly-purchased warehouse before being able to use the building

Parking fine incurred by Brown

Revenue	Capital

4 BADGES OF TRADE

Read the following statements. Tick the appropriate box to show whether or not the individual is likely to be considered to be carrying on a trade.

Fred buys a painting in 2012 for £40,000 and hangs it in his home. In 2019 he sells the painting for £50,000 as he needs the cash to pay for a new house.

Franz regularly buys items in charity shops and then sells them soon after on online auction sites for a higher price. He estimates that each week he has a cash profit of £250 from the sales.

Each month Jason buys an old car and then repairs it prior to selling it at a profit. He has rented a lock up garage to carry out this work. He uses the money he receives from selling a car to buy the next car.

Carrying on a trade	Not carrying on a trade

ADJUSTMENT OF PROFITS

**Key answer tips**

Adjustment of profits questions may include a computation starting from the accounting profit where you will need to adjust for disallowed expenses. It is important to carefully read the question and consider each item to decide whether it is allowable or not.
