# INDEX TO QUESTIONS AND ANSWERS

## INTRODUCTION

The style of the ATX exam questions has changed over the years and significant changes have had to be made to questions in light of the legislative changes in recent Finance Acts.

Accordingly, many of the old ACCA questions within this kit have been adapted to reflect the new style of exam and the new rules. Therefore, some questions may not be worth 50 or 25 marks. If changed in any way from the original version, this is indicated in the end column of the index below with the mark (A).

Also included are the marking schemes for past ACCA real examination questions to assist you in understanding where marks are earned and the amount of time to spend on particular tasks. Note that if a question has been changed from the original version, it will have also been necessary to change the original ACCA marking scheme. Therefore, if a question is marked as adapted (A) you should assume that this also applies to the marking scheme.

Note that the majority of the questions within the kit are past ACCA exam questions, the more recent questions are labelled as such in the index.
